

Sachdeva College of Pharmacy Explores Sarangpur Botanical Garden and Renewable Energy Museum

On the 12th of April 2023, Sachdeva College of Pharmacy organized an educational visit to the Botanical Garden in Sarangpur, which was created by the Medical Plant Board of UT Chandigarh. This garden is spread over 35 acres and houses an impressive collection of medicinal trees and herbal medicinal herbs.

The field guide of the garden provided them with detailed information about the various species of plants and their medicinal properties. This guided tour offered an excellent opportunity for the students to observe these plants up close and learn about their uses in traditional medicine.

During the visit, the students were also able to see rare medicinal plants, including Rudraksh and Chandana. They were able to gain knowledge about these plants and their traditional medicinal uses, which is invaluable to their pharmacy education.

In addition to the botanical garden, the students also had the opportunity to visit a museum showcasing renewable energy. This experience gave the students insight into the importance of sustainable living and the role of renewable energy in the future.

At the end of the visit, the field officer presented the students with a hamper of medicinal plants, including some of the rare plants they had seen during the tour. This gesture was appreciated by the students and faculty members, as it allowed them to continue learning about these plants even after the visit had ended.

A total of 49 students participated in the educational trip. The students belonged to different courses, including B.Pharmacy 2nd sem (12 students), B.Pharmacy 4th sem (10 students), B.Pharmacy 6th sem (14 students), and D.Pharmacy 1st year (13 students).

The students were accompanied by three faculty members, Mrs. Poonam Bhauta, Ms. Shama Parveen, and Mr. Varinder Singh, who ensured that the visit was informative and enriching for the students. The faculty members provided guidance and answered the students' questions, making sure that everyone had a fulfilling learning experience.

Overall, the students and faculty members had a great time during the trip and gained valuable knowledge about traditional medicine and the importance of biodiversity. The visit was a success, and the students and faculty members look forward to participating in more such educational trips in the future.
